

WFA Launches YouTube Channel

By Randy Cantrell

Westie Foundation of America, Inc. (WFA) is pleased to announce the launch of our new YouTube channel. The WFA will use this channel to start creating content aimed primarily at serving the Westie pet owner. WFA will also be providing useful content for veterinarians and breeders.

Coming episodes will include interviews with experts like Dr. Kay McGuire with recommendations on how pet owners can better care for their Westies. We'll also be provided updated information on the work we're doing to help foster improved health for West Highland White Terriers.

**Subscribe to the channel and help us spread the word.
