

RAMETRIX BLADDER CANCER RESEARCH

OWNER _____

ADDRESS _____

DOGS NAME _____ EMAIL _____

BREED _____ DOB _____

AKC NUMBER _____ DATE SAMPLE COLLECTED _____

TIME OF COLLECTION _____

This urine sample is being used in Research to develop an industrial test to initially allow early detection and monitor treatment efficacy of Bladder cancer. It is our hope that the test will progress to identify many health conditions in the West Highland White Terrier.

If your Westie has had or has been diagnosed with health conditions please list below:
